Institut d'Enseignement Supérieur de Ruhengeri (INES-Ruhengeri)
Course: Mobile Application Development, SWE 3409 Individual Assignment 2: "My Name Is" Personal Portfolio App

Student name	Dominic Onen
Registration number	25/28259
App name	OnenPortfolio
Verification code	MOB-A2-8259
GitHub repository	MOB_A2_2528259

Statement

I, Dominic Onen, registration number 25/28259, declare that:

1. I have read the assignment brief and the INES academic integrity rules, and this submission is made by me and lil bit of AI assistant “claude”.
2. The skills, education and projects shown in the portfolio describe my real work. I have not claimed anything that is untrue unless the one I completely don’t know and assisted on.
3. I used an AI assistant (Claude, by Anthropic) to help generate source code, configuration files and documents. The details are in evidence/AI_USE.md.
4. I reviewed the submitted code, built the APK, installed it on my own Android phone, completed the tests in the test log myself, and recorded the demonstration video myself.
5. I understand how the app works and can explain or change any part of it.
6. I have not included real passwords, tokens, private keys or sensitive personal records in the project.
