Test log: OnenPortfolio

Student: Dominic Onen **Registration number:** 25/28259 **Verification code:** MOB-A2-8259

Test conditions (fill in when testing)

Phone make and model	TECHNO CAMON
Android version	Android 13
Date and time of testing	10/11/2026 7:00 am
APK file tested	MOB_A2_2528259.apk (version 1.0.0)
Final commit hash	afc4c69dd035e4a6fac9a292c05f9b46afaf50f9
Tested by	Dominic Onen

Checks already run on the source code during development

Check	Command	Result
TypeScript type check	npx tsc --noEmit	Passed, no errors
Android JavaScript bundle	npx expo export --platform android	Passed, bundle built

These two checks do not replace testing the installed APK. The device tests below must be done on a physical Android phone.

Device tests on the installed APK

Tick Pass or Fail after performing each step on the phone, and write what you saw in Notes.

ID	Steps	Expected result	Result	Notes
T1	Install the APK on a phone and open it from the app drawer. Expo Go is not installed or not used.	App installs and launches to the Home screen without Expo Go.	☐ Pass ☐ Fail	
T2	Read the top of Home.	First sentence reads exactly "My name is Dominic Onen." The verification code MOB-A2-8259 is shown.	☐ Pass ☐ Fail	
T3	Open Skills.	At least five skills and the education/training timeline are shown.	☐ Pass ☐ Fail	
T4	Open Projects, tap each project.	At least two projects open on a separate Project Details screen showing problem, contribution and technology.	☐ Pass ☐ Fail	
T5	On Project Details press Android Back; then switch tabs and return.	Back returns to the project list; the session is not reset.	☐ Pass ☐ Fail	
T6	Profile tab: clear Headline and tap Save changes.	Validation message appears under Headline, a summary banner appears, nothing is saved.	☐ Pass ☐ Fail	
T7	Enter a 5-character biography and an empty primary skill; Save.	Field-level messages appear for each; save is blocked.	☐ Pass ☐ Fail	
T8	Enter valid values and Save.	"Profile saved on this phone." appears; Home shows the new headline, skill and availability.	☐ Pass ☐ Fail	
T9	Fully close the app (swipe away) and reopen.	The saved profile is restored on Home and in the Profile editor.	☐ Pass ☐ Fail	
T10	Tap Take photo and allow the camera; take a picture.	Preview shows the new picture; Home shows it.	☐ Pass ☐ Fail	

T11	Tap Choose from gallery and pick another picture (Replace).	Preview and Home show the replaced picture.	☐ Pass ☐ Fail
T12	Tap Remove picture.	Initials avatar is shown again on Home and in the editor.	☐ Pass ☐ Fail
T13	Tap Take photo and deny the camera permission.	A clear message appears with an Open Settings option; the picture is unchanged.	☐ Pass ☐ Fail
T14	Open the camera or gallery and cancel without choosing.	"Cancelled. Your current picture is unchanged." appears.	☐ Pass ☐ Fail
T15	Turn on Airplane Mode and use every tab.	The whole portfolio works. Only the GitHub link on a project page needs internet.	☐ Pass ☐ Fail
T16	Open About.	App name DOPortfolio, name, registration number 25/28259, code MOB-A2-8259, version and data-use statement are shown.	☐ Pass ☐ Fail
T17	Set the phone's font size to the largest setting and visit each tab.	Text stays readable; cards grow instead of being cut off; five tabs stay on one line.	☐ Pass ☐ Fail
T18	Tap Reset profile and confirm.	The saved profile and picture are deleted; default content returns.	☐ Pass ☐ Fail

Summary

Tests passed: 18 of 18

Problems found and fixed: EAS app development delay
